

# WIKILEAKS VAULT 7: The C.I.A. Is Listening Via Everything

[David Seaman](#)

<https://www.youtube.com/watch?v=w1-nmA5My7U>

0:00  
a friends so earlier this morning a  
0:02  
wikileaks release their much-anticipated  
0:04  
bolt seven and vault seven contains a  
0:09  
number of pieces of information about  
0:11  
the CIA's top secret hacking tool now  
0:15  
before i go into some of what was  
0:16  
revealed  
0:18  
I'm starting to not like the deep state  
0:20  
i'm starting to get annoyed with these  
0:22  
people who are using hundreds of  
0:24  
billions of dollars of taxpayer money of  
0:27  
our money and they're not using it on  
0:29  
better roads for better schools or  
0:32  
better healthcare programs for the poor  
0:34  
they're using it to infiltrate citizens  
0:37  
iphones and mac and windows and even

0:41  
linux operating system and it's far more  
0:44  
sophisticated the many computer  
0:46  
scientist believes was even possible  
0:50  
now they're using all these incredibly  
0:53  
sophisticated technologies  
0:55  
however they're not catching the child  
0:57  
pedophile ring in Washington DC with  
1:00  
them and they don't seem to be really  
1:01  
catching terrorists with them so what  
1:04  
are these tools being used for let's go  
1:06  
ahead and read part of the press release  
1:08  
from WikiLeaks and i want to point out a  
1:10  
couple of the things that stood out to  
1:11  
me as most intriguing so far and this is  
1:15  
a big this the big dog that's about  
1:17  
8,700 documents so myself and my team  
1:21  
has not gone through everything  
1:22  
this is just an initial review about you  
1:25  
have subscribed hit subscribe below  
1:28  
because we're gonna do a number of  
1:29  
videos this week going through some of  
1:31  
the stuff that wikileaks has revealed in  
1:34  
this vault 7 in this vault seven batch

1:37  
so their press release reads today  
1:39  
tuesday seventh March 2017 WikiLeaks  
1:44  
begins its new series of weeks on the US  
1:46  
Central Intelligence Agency codenamed  
1:49  
vault 7 by WikiLeaks it is the largest  
1:53  
ever publication of confidential  
1:55  
documents on the agency the first full  
1:58  
part of the series year zero comprises  
2:02  
8760 one documents and files from an  
2:06  
isolated high security network situated  
2:09  
inside the CIA's center for cyber  
2:12  
intelligence  
2:13  
in Langley Virginia it follows an  
2:16  
introductory disclosure last month of  
2:19  
CIA targeting French political tart  
2:21  
targeting French political parties and  
2:23  
candidates in the lead-up to the 2012  
2:26  
presidential election  
2:28  
recently the CIA lost control of the  
2:31  
majority of attacking Arsenal including  
2:33  
malware viruses trojans weaponized  
2:38  
zero-day exploits malware remote control  
2:42  
systems and associated documentation

2:44  
this extraordinary collection which  
2:48  
amounts to more than several hundred  
2:50  
million lines of code gives its  
2:52  
possessor the entire hacking capacity of  
2:55  
the CIA  
2:57  
well I mean this is big league this is  
3:00  
definitely bigley so in the analysis  
3:03  
section again we haven't finished  
3:05  
reviewing everything but there are tools  
3:07  
developed by the CIA which can hack into  
3:11  
your iPhone your Android smartphone and  
3:14  
even smart tvs it mentions an attack  
3:18  
against samsung smart tvs that was  
3:21  
developed in cooperation with the uk's  
3:23  
mi5 and it says that after infestation  
3:27  
weeping angel that's the name of the  
3:30  
program weeping angel it places the  
3:32  
target TV in a fake off mode so that the  
3:36  
owner falsely believe the TV is off when  
3:39  
it is on in fake off mode the TV  
3:43  
operates as a bug recording  
3:45  
conversations in the room and sending  
3:47  
them over the Internet to a covert CIA

3:50  
server now when you dig into some of the  
3:53  
technicals of this CIA malware is  
3:56  
capable of targeting windows machines OS  
4:00  
10 max machines linux and even Internet  
4:03  
routers themselves now it does say that  
4:06  
the CIA has also been hoarding a winter  
4:09  
note is zero day exploits so they have a  
4:11  
number of those and then perhaps most  
4:14  
disturbing is the fact that this  
4:17  
technology is so advanced it can evade  
4:20  
existing forensics and existing  
4:22  
antivirus software so how does that work  
4:25  
well one program  
4:27  
I'm actually a infiltrates your recycle  
4:30  
bin and hides itself there again this is  
4:33  
far more sophisticated than many people  
4:34  
in the computer security field thought  
4:38  
was even possible so again this annoys  
4:41  
me because hundreds of billions of our  
4:42  
taxpayer dollars are going into these  
4:45  
programs with no real oversight  
4:47  
whatsoever and we don't know who is  
4:50  
being targeted who's phone is being

4:53  
infiltrated whose recycle bin has  
4:55  
malware from the CIA sitting in there  
4:59  
and more important to stevie has been  
5:01  
shut to stevie has been put into fake  
5:04  
off mode making it appear to be turned  
5:06  
off when it is actually recording your  
5:08  
conversations and sending them to a  
5:11  
server owned and operated by the US  
5:13  
Central Intelligence Agency does that  
5:16  
concern you let me know in the comments  
5:18  
section below and speaking of concerning  
5:21  
things  
5:22  
michael Flynn jr. made a great point on  
5:25  
twitter we bring it up and I would  
5:28  
encourage all of you to think about this  
5:30  
for a few minutes because when it comes  
5:32  
to pedo gate pedo gate is very real i  
5:35  
was in washington DC yesterday meeting  
5:38  
with the number of my closest contact  
5:40  
and i have 150 percent confidence that  
5:44  
pedo gate is real now the media might  
5:46  
try to make the focus only about comet  
5:49  
pizza for only about some other pieces

5:51  
shop in Washington DC  
5:53  
do not let them distract you pedo gate  
5:56  
involves Joe Biden pedo gate involves  
6:00  
members of the British Parliament and  
6:03  
business executives around the world  
6:05  
this needs to be investigated this needs  
6:08  
to be prosecuted  
6:09  
I have full faith and confidence that  
6:11  
John Podesta specifically will be going  
6:14  
to prison but beyond that I don't have  
6:16  
all that much information and the  
6:18  
character attacks that I have been the  
6:21  
victim of over the last week and a half  
6:23  
now for continuing to cover pedo gate  
6:25  
which some people refer to it as  
6:28  
pizzagate as well so i think we should  
6:30  
start following a pedo gate because  
6:31  
again this isn't just about 160 to shop  
6:34  
this is about a global network of  
6:36  
pedophiles and globalists and people who  
6:39  
practice a religion that is not  
6:41  
judeo-christian in nature and that does  
6:44  
not believe in compassion or love but

6:47  
instead believes in increasing the  
6:48  
amount of human suffering on our planet  
6:50  
so michael Flynn jr. tweeted out still  
6:54  
don't get why no MSM mainstream media  
6:57  
reporting on maybe they invest in this  
7:01  
artwork all dropped if someone can  
7:03  
explain just this one painting so  
7:06  
michael Flynn jr. is saying he'll drop  
7:08  
the subject of pedo gate is somebody out  
7:10  
there can just explain what the fuck is  
7:13  
going on with the artwork that is on  
7:15  
Tony protesters walls of his own house  
7:18  
it appears to be dead children with  
7:20  
their eyes blackened and foliage plants  
7:25  
growing up around the corpses of these  
7:27  
dead children that's an odd choice in  
7:29  
art thank you guys so much for watching  
7:31  
I am NOT going to stand down about pedo  
7:34  
gate the attacks on me here on YouTube  
7:37  
by a couple of individuals are  
7:38  
disgusting those videos have been  
7:41  
archived and give it to my lawyer  
7:42  
slander and defamation laws exist in the

7:45  
United States for a good reason  
7:47  
and there's a reason why I haven't been  
7:48  
sued for my claims about John Podesta  
7:50  
yet they're his own emails John Podesta  
7:53  
really is using a disgusting code  
7:55  
language known to law enforcement to be  
7:57  
used by child predators and child  
8:00  
traffickers and since Donald Trump was  
8:02  
inaugurated more than 1,500 human  
8:05  
traffickers has been apprehended and  
8:08  
arrested and what we say human  
8:10  
trafficking  
8:10  
we're not always talking about adults in  
8:12  
a lot of cases they were trafficking  
8:14  
very young children thank you guys so  
8:16  
much for watching thank you for your  
8:18  
continued support and again hit  
8:20  
subscribe below because this is the  
8:21  
first of many videos on this astounding  
8:24  
weekly stump they did not disappoint  
8:27  
this actually shows according to their  
8:29  
press release that the CIA has tools  
8:32  
that are actually superior that's what

8:35  
the NSA has scary stuff  
8:37  
now we don't want to necessarily start a  
8:39  
pissing contest between the hackers at  
8:41  
the NSA and the actors of the CIA but  
8:44  
again this annoys me because our  
8:46  
taxpayer money is going into making our  
8:48  
own phones and our own TVs and our own  
8:51  
operating system  
8:52  
significantly less safe and we don't  
8:55  
know what the purpose is again the  
8:56  
purpose doesn't appear to be stopping  
8:58  
pedophile rings because they haven't  
9:00  
stopped that ring with this technology  
9:02  
and it doesn't appear to be stopping  
9:04  
terrorism because a number of attacks  
9:07  
that happened on US soil under President  
9:09  
Obama's two terms even with all these  
9:12  
capabilities  
9:13  
thank you guys so much for watching  
9:14  
you're watching programmes be sure to  
9:16  
bookmark fulcrum bad news
